

# DETMOLD GROUP

As a leading manufacturer of paper and board products, the Detmold Group's global network includes Australia, Asia, Europe, the Middle East, South Africa, USA and Canada. A highly customer responsive company, the Detmold Group offers an unrivalled range of innovative packaging solutions to a diverse range of markets. Driven by the highest standards in every aspect of operations, the Group places a strong emphasis on quality, service and efficiency within all aspects of its operations. We are committed to the continual improvement of our environmental performance in relation to all of our products and operations.

## ENVIRONMENTAL POLICY

The Detmold Group actively supports all of its customers with their programs to use environmentally friendly packaging. This is done by advising customers of the best packaging options to meet their environmental objectives, introducing new materials and developing new processes for the manufacture and distribution of the package.

As an ethical manufacturer the Detmold Group ensure that any paper or board used is sourced from sustainable, legal and ethical sources. The Detmold Group regularly audits its suppliers for evidence of sustainable practices.

The Detmold Group also controls its own manufacturing sites to ensure that it has minimal impact on the community and its environment. This is actioned by continuing to reduce the consumption of energy and water, eliminating harmful substances and minimising process waste.
